

## SABZ PVC AU-60

AU-60 is a medium-low molecular weight suspension resin. It offers high fusion rate in processing and has a narrow particle size range. It is very low in fish-eyes, gel count and foreign matter and has excellent heat stability and clarity. It is recommended for transparent and opaque rigid PVC applications.

## TYPICAL PROPERTIES

Property	Value	Test Method*
K-Value	60 ± 1	DIN 53726
Appearance	White	-----
Bulk Density g/cc	0.52 - 0.58	JIS K6721
Volatile Matter	Max. 0.4%	JIS K6721
Particle Size		
Passes 40 mesh	100%	EAPCL Method
Passes 270 mesh max.	3%	

\* DIN :German Standards

JIS: Japanese Industrial Standards

## APPLICATIONS

Rigid calendered PVC sheet, PVC bottles, injection moulded PVC fittings for pressure application, rigid PVC extruded film and sheet, PVC welding rods.
